REGIONAL TOLL REVENUE

RTR SH 121 & SH 161 Fund Balances Report

Executive Summary

As of April 30, 2026

Introduction

The State Comptroller and TxDOT provide NCTCOG with reports each month that shows cash balances broken by Accounts 121, 122, 161 and 162. The interest income earned in one month is calculated on daily balances but paid into these four accounts in the subsequent month.

The state reports also show spending by project within the four accounts. Therefore, the cash balances are computed by taking the beginning balances, adding the interest income received and subtracting the expenditures made each month. The interest is allocated based on the previous month's fund balances.

Critical Factors to Consider

TxDOT does not change their prior month spending totals, correcting only the most recent month. The net result is that the monthly spending shown in the most recent RTR Fund Balances Report has the correct current totals with proper interest allocation calculations. Amounts are adjusted as necessary to assure NCTCOG reports agree with TxDOT.

Advances

Advances awarded to local entities from TxDOT are shown in this report. Local entities receiving these advances are responsible for reporting expenditure's, interest earned and project status directly into the RAPT system monthly.

RTR Projects now have multiple counties funding existing and new projects within the region. Since we report project disbursements to the county providing the funds, pro-rata share percentages will be applied within a CSJ. If new funding comes into a CSJ with existing expenditures, they will be reclassified in the current period to the pro-rata share percentages.

Loaned Funds

A portion of the SH 121 funds are temporarily loaned to NTTA and TxDOT in order for projects to be implemented as early as possible (see page 20). These funds are to be repaid from toll revenues in accordance with pre-determined schedules.

Current Events

Reimbursements for construction engineering from TxDOT now total \$80,226,639.66. These reimbursements are being applied to each TIP Code and included in the county fund balances.

NTTA began making PGBT EE toll revenue payments in January 2012 to begin the loan payoff for CSJ 2964-06-019. As of March 2026 the loan amount of \$124,733,833 has been fully paid and recorded in Dallas County account 122.

Contact Information

If you have questions or comments about this report, please contact: Randy Richardson, Director of Administration; 817-695-9178; rrichardson@nctcog.org or Richard Matyiku, Fiscal Manager; 682-433-0449; rmatyiku@nctcog.org.
